1. Finance & Accounting Tables

GL_ACCT_MSTR

Table Description: The master chart of accounts defining all financial categories for General Ledger reporting.

Column Name	Description
ACCT_ID_X	The unique alphanumeric identifier for the General Ledger account (e.g., GL1000).
ACCT_NM_STR	The human-readable name of the General Ledger account (e.g., Gross Revenue, COGS, Payroll).
BAL_SHT_FLG	Flag indicating if the account belongs on the Balance Sheet (1) or the Income Statement (0).
ACT_INACT_IND	Indicator showing if the account is currently Active ('A') or Inactive ('I').

GL_F_TRX_00

Table Description: The core financial fact table containing every debit and credit transaction hitting the General Ledger.

Column Name	Description
TRX_ID_N	The unique transaction identification number.
ACCT_ID_X	The General Ledger account ID mapped to this transaction.
POST_DT_SK	The surrogate integer date key (YYYYMMDD) indicating when the transaction was posted.
DR_CR_IND	Indicator identifying if the transaction is a Debit ('D') or a Credit ('C').
AMT_BASE	The base monetary amount of the transaction in USD.
SRC_SYS_CDE	The internal source system that generated the transaction (e.g., 'SLS' for Sales, 'INV' for Inventory).

FIN_OPEX_DTL

Table Description: Granular line-item details of company Operating Expenses (OPEX), heavily used for calculating marketing and acquisition costs.

Column Name	Description
EXP_ID	The unique identifier for the operating expense record.
DEPT_CD	The department code responsible for the expense (e.g., 'MKTG', 'SALES', 'IT').
SPND_TYP_IND	Integer code representing the spend category (e.g., 10 for Digital Ads, 30 for Events).
AMT	The total monetary amount of the expense in USD.
POST_DT	The calendar date the operating expense was incurred and posted.

2. Date Dimensions

SYS_CAL_DIM

Table Description: The centralized corporate date dimension mapping calendar dates to corporate fiscal periods.

Column Name	Description
DT_SK	The integer surrogate key for the date, formatted as YYYYMMDD.
CAL_DT	The standard calendar date (DATE format).
FISC_YR_N	The corporate Fiscal Year. The fiscal year runs from Jan 1 - Dec 31.
FISC_QTR_N	The corporate Fiscal Quarter (1 through 4).
FISC_PER_N	The specific month number of the fiscal year.

3. Sales & Orders

SLS_ORD_HDR

Table Description: The header-level fact table for all sales transactions containing order status, dates, and channel routing.

Column Name	Description
ORD_NO_SYS	The unique system-generated Order Number.
CUST_NUM_ID	The Direct-to-Consumer (D2C) Customer ID. This is NULL if the order was a Wholesale B2B order.
DIST_ACCT_ID	The Wholesale Distributor Account ID. This is NULL if the order was a D2C retail order.
ORD_DT_SID	The surrogate integer date key indicating when the order was placed.
CHN_FLG	Integer flag indicating the sales channel. 1 = D2C (Direct-to-Consumer), 2 = Wholesale (B2B).

Column Name	Description
STS_CDE	The order fulfillment status. 'O' = Open, 'C' = Closed/Fulfilled, 'V' = Voided.

SLS_ORD_DTL_LN

Table Description: The line-item details for every sales order, detailing specific products, quantities, and applied discounts.

Column Name	Description
ORD_NO_SYS	The parent Order Number linking back to the order header.
LN_NO_N	The specific line number within the order.
PRD_SKU_CD	The unique Product SKU code purchased on this line.
QTY_N	The quantity of the product purchased.
UNIT_PRC_AMT	The MSRP or base unit price of the product in USD.
DISC_PCT_N	The discount percentage applied to this line item (e.g., 0.15 = 15% discount).

SLS_RTN_LOGS_V2

Table Description: The fact table capturing all product returns, refunds, and associated defect reasons.

Column Name	Description
RTN_AUTH_ID	The unique Return Authorization ID.
ORD_NO_SYS	The original Order Number the returned product belongs to.
PRD_SKU_CD	The specific Product SKU being returned.
RTN_DT	The date the return was processed and received.
RSN_CDE_N	Integer code for the return reason. 1 = Defective, 2 = Wrong Size, 3 = Changed Mind.
RFN_AMT	The total monetary amount refunded to the customer in USD.

B2B_INV_AGING

Table Description: Tracks the status and aging of B2B invoices issued to Wholesale Distributors.

Column Name	Description
INV_NUM_X	The unique Invoice Number. Note: Invoices are created by prepending 'INV-' to the original ORD_NO_SYS.
DIST_ACCT_ID	The Wholesale Distributor Account ID responsible for payment.

Column Name	Description
ISSUE_DT	The date the invoice was generated and sent.
PAID_DT	The date the invoice was paid in full. Null if still unpaid.
AMT_DUE	The total monetary amount due for the invoice in USD.
STS_FLG	Integer flag indicating payment status. 0 = Open/Unpaid, 1 = Paid, 9 = Default/Collections.

4. Customers, Geos, & Channels

CUST_MSTR_D2C

Table Description: The master dimension table containing PII and profile data for Direct-to-Consumer (retail) customers.

Column Name	Description
CUST_NUM_ID	The unique identifier for the D2C retail customer.
F_NM	The customer's First Name.
L_NM	The customer's Last Name.
EML_ADDR_TXT	The customer's Email Address (Classified as High-Risk PII).
PHONE_NUM_V	The customer's Phone Number (Classified as High-Risk PII).
ACQ_DT	The date the customer made their first purchase or created their account.
OPT_IN_FLG	Flag indicating if the customer opted into marketing emails. 1 = Yes, 0 = No.

DIST_ACCT_MSTR

Table Description: The master dimension table containing profile data for our B2B Wholesale Distributor partners.

Column Name	Description
DIST_ACCT_ID	The unique identifier for the Wholesale Distributor.
CO_NM_TXT	The legal company name of the Distributor.
REG_ID_CD	The geographic Region ID where the distributor is headquartered.
ONBRD_DT	The date the distributor signed their B2B partnership agreement.

GEO_REG_HIER

Table Description: The geographic hierarchy mapping specific territory codes to global regions.

Column Name	Description
REG_ID_CD	The unique internal Region ID code (e.g., 'R_01').
CTRY_CD	The two-letter Country Code.
RGN_NM_TXT	The macro global region name (e.g., NorthAm, EMEA, APAC).
SUB_RGN_TXT	The specific sub-region or territory name (e.g., West Coast, Nordics).

CUST_FEEDBACK_FCT

Table Description: The repository for customer reviews and product feedback ratings.

Column Name	Description
FDBK_ID_X	The unique identifier for the feedback submission.
CUST_NO_X	The D2C Customer ID who submitted the feedback (Maps to CUST_NUM_ID).
PRD_SKU_CD	The Product SKU being reviewed.
SUB_DT	The date the feedback was submitted.
RTG_N	The star rating provided by the customer, on a scale of 1 to 5.
VLD_FLG	Flag indicating if the review is from a verified purchaser. 'Y' = Yes, 'N' = No.

5. Products & Supply Chain

PRD_MSTR_CAT

Table Description: The product master dimension detailing active SKU attributes and pricing.

Column Name	Description
PRD_SKU_CD	The unique Stock Keeping Unit (SKU) identifier for the product.
PRD_NM_TXT	The formal, human-readable name of the product.
CAT_CDE_N	The integer code mapping the product to its macro category.
SUB_CAT_CDE_N	The integer code mapping the product to its specific sub-category.
LCH_DT	The date the product was officially launched into the market.

PRD_CAT_DEF

Table Description: Lookup table translating numeric product category codes into human-readable descriptions.

Column Name	Description
CAT_CDE_N	The integer category code.

Column Name	Description
CAT_DESC_TXT	The description of the product category (e.g., Bikes, Outerwear, Kayaks, Tents).

PRD_COGS_FCT

Table Description: A Slowly Changing Dimension (SCD) tracking the Cost of Goods Sold (COGS) for products over specific time periods.

Column Name	Description
PRD_SKU_CD	The Product SKU.
EFF_DT	The Effective Date when these costs began applying to the product.
END_DT	The End Date when these costs stopped applying to the product.
MTL_CST_AMT	The raw material manufacturing cost in USD.
LBR_CST_AMT	The manual labor and assembly cost in USD.
TRFF_AMT	Associated international import/export tariffs in USD.

INV_WHSE_FCT

Table Description: A weekly snapshot table logging the physical inventory levels across all global warehouses.

Column Name	Description
WHSE_LOC_CD	The unique identifier for the warehouse facility.
PRD_SKU_CD	The Product SKU currently in stock.
SNAP_DT	The date the inventory snapshot was taken (typically every 7 days).
QTY_ON_HND_N	The physical quantity of the product currently on-hand in the warehouse.

VNDR_SPLY_MSTR

Table Description: The master dimension of external vendors who supply raw materials for manufacturing.

Column Name	Description
VNDR_ID_C	The unique Vendor ID.
VNDR_NM	The legal name of the supply vendor.
MTL_TYP_CD	The code representing the primary material supplied (e.g., 'ALUM' for Aluminum, 'CRBN' for Carbon Fiber).

6. HR & Operations

HR_EMP_MSTR

Table Description: The master employee directory tracking internal personnel and department alignment.

Column Name	Description
EMP_ID_N	The unique internal Employee ID number.
EMP_NM	The full name of the employee.
DEPT_CD	The department the employee reports to (e.g., 'SALES', 'MKTG').
HIRE_DT	The date the employee was officially hired.

SLS_REP_QUOTA

Table Description: The financial target quotas assigned to regional sales representatives on a quarterly basis.

Column Name	Description
EMP_ID_N	The Employee ID of the sales representative.
REG_ID_CD	The Region ID the representative is responsible for selling into.
QTR_TXT	A string representing the target quarter (e.g., '2024-Q1').
QTA_AMT	The total sales target (quota) amount in USD the representative is expected to close.
